Interests:

In my spare time I enjoy hanging out with friends: going to the cinema, playing snooker/pool, and road trips to random places are all particular favourites. I am a member of a large community of people who share a passion for Japanese animation. We arrange social gatherings throughout the year, meeting up all over the country at various events. I try to be open-minded about everything, and enjoy experiencing new cultures. I love travelling and have visited lots of places throughout Europe. When at home, I like to work on my personal animations, both to relax and improve my skills. I'm trying to build on my biggest interest in animation and multimedia and I'm determined to make a living out of it.
